 4 enero 2019 es +28.6 % (401.91)  
 10 de enero 2020 es +51.5 % (341.45)

# Tasa de cambio (venta) RD\$ por US\$Dolar

A vibrant photograph of a river flowing over large, smooth, greyish-brown rocks. The water is clear and turbulent, creating white foam and splashes as it cascades over the rocks. The background is filled with dense, lush green vegetation, including tall grasses and trees, under bright sunlight. The overall scene is a natural, scenic representation of water in its element.
